ANGLING CHECKLIST

- Always wear a personal flotation device (lifejacket or buoyancy aid) when fishing.
- Practice CPR - catch, photo, release as you fish.
- Tread carefully. Avoid damaging sensitive habitats getting to your location.
- Be aware of changing tides or water levels.
- Prevent spread of invasive species - check and remove any debris or plants and leave behind.
- Always tell someone when you expect to be home.
- Let any wildlife encounter be on their terms. Keep your movements slow and steady.
- Take your waste home with you and dispose of it properly.
- Only light fires when and where they are permitted.
- After use… check, clean and dry your equipment and clothing. Help stop the spread of invasive species.

THE OUTDOORS IS YOURS – PROTECT IT
