

STORIES OF CHANGE

PITCHING POSITIVITY

WHO ARE WE?

A team of educators, chefs, photographers and creative folk on a mission to flip the current climate narrative to positivity and hope by bringing stories and solutions to the table, to inspire Ireland's community climate action.

OUR MISSION.

To create a collection of climate actions inspired by the stories and solutions of local people, doing good things for Earth Care, People Care and Fair Share. This summer we're bringing storytelling, feasting, exhibitions and celebrations to Donegal, Galway, Clare and Kerry.
